Private Villa | Luminiscent Blue

LUMINISCENT

ONIX's luminescent glass mosaic glows in the dark for hours after being charged with light, both natural or artificial (fluorescent, ultraviolet or halogen). This cycle may be repeated indefinitely.

The glow endurance depends on how long it has been exposed to light and also with the type of light it has been energized with. The luminescent will then gradually fade away after hours in the darkness.

This mosaic is weatherproof so it is suitable for any use: swimming pools, indoors & outdoors, walls, residential floors... It can be used as a plain color or mixed with the rest of ONIX mosaics.

El mosaico vítreo luminiscente brilla en la oscuridad durante horas después de haber estado expuesto a la luz, tanto natural como artificial fluorescente, ultravioleta o halógena. Este proceso puede repetirse indefinidamente.

El tiempo de emisión dependerá del tipo de luz con el que se haya efectuado la carga, así como del tiempo que haya estado cargando el mosaico luminiscente. La intensidad de la emisión es gradual, disminuyendo poco a poco con el paso de las horas.

Este mosaico es resistente a condiciones meteorológicas y, por tanto, apto para cualquier uso: piscinas, interiores y exteriores, paredes, suelos residenciales... Se puede utilizar como base o se puede mezclar con otro producto de ONIX mosaico.

La mosaïque de verre phosphorescente brille dans l'obscurité pendant des heures après avoir été exposée à la lumière tant naturelle qu'artificielle (fluorescents, ultraviolets, halogènes). Cette opération peut être répétée de manière indéfinie.

Le temps d'émission dépendra du type de lumière utilisée mais aussi du temps durant lequel la mosaïque phosphorescente aura été exposée. Le temps d'émission est gradué et diminuera peu à peu au fil des heures.

Cette mosaïque est résistante aux conditions météorologiques. Elle peut donc être utilisée dans n'importe quelle application: piscines, intérieurs et extérieurs, murs, sols résidentiels... Elle peut être posée seule ou en mélange avec d'autres références d'ONIX mosaico.

ADVISE / AVISO / REMARQUES

The images displayed are approximate simulations and ONIX cannot guarantee that the color of the water will have the exact same resemblance. Several factors vary the tone of swimming pools after installation like weather conditions, amount of direct sunlight, time of day, depth of the pool, color of the grout applied, surroundings, geo location with respect to the hemisphere...

ONIX no puede garantizar la exactitud del color del agua, es una simulación aproximada. Hay muchos factores que pueden variar el tono: incidencia del sol y nubes, hora del día, profundidad de la piscina, el color de la junta, ubicación respecto al hemisferio...

Ces photos sont des simulations, Onix ne peux pas garantir l'exactitude de la couleur de l'eau présentée. Plusieurs facteurs peuvent en effet influer sur la nuance de la couleur comme par exemple: l'ensoleillement, les nuages, l'heure du jour, la localisation par rapport à l'hémisphère, la profondeur de la piscine, l'environnement de la piscine, la couleur du joint utilisé...

DIGITAL PRINT

A digital printing system that reproduces any image or vector file on glass mosaic.

- Process
- Send a photo or a similar reference image.
 - Choose the base material.
 - Send the space's dimensions.

- Specifications
- Digital image in JPEG or TIFF extension, with a 300 dpi resolution.
 - Vector file in EPS or AI format.

- Note
- If the image does not have the appropriate resolution, ONIX will suggest a similar alternative image.
 - ONIX may submit a different estimate for very complex designs.

Es un sistema de impresión digital que reproduce sobre mosaico vítreo cualquier imagen o archivo vectorial.

- Proceso
- Envía tu propia fotografía o una imagen referencia similar.
 - Elige el material base.
 - Dinos el tamaño del decorado.

- Requisitos
- Imagen digital en formato JPEG o TIFF, con una resolución de 300 ppp.
 - Archivo vectorial en formato EPS o AI.

- Consideraciones
- Si la imagen no tiene la resolución adecuada, ONIX propondrá una imagen alternativa similar.
 - Para propuestas muy elaboradas, ONIX podrá presupuestar el diseño aparte.

C'est un système d'impression digitale qui reproduit les images ou fichiers vectoriels sur la mosaïque de verre.

- Processus
- Envoyez une photo ou une image de référence similaire.
 - Choisissez le matériau de base.
 - Envoyez les dimensions de l'espace.

- Conditions
- Image numérique dans un format JPEG ou TIFF, avec une résolution de 300 ppp.
 - Format de fichier vectoriel EPS ou AI.

- Remarque
- Si l'image n'a pas la résolution appropriée, ONIX proposera une image alternative similaire.
 - ONIX peut soumettre un devis séparé pour des designs très complexes.

Iberostar Grand Hotel Portal Nous | Pixel Art

Special Order

PIXEL ART

Each tile is a pixel. We transform a design or image into a mosaic with 25x25 chips. Reproduce logos, transform images, borders, patterns...

Process

- Give us a detailed description of your idea with a reference image.
- Submit your own design if you have it.
- Choose the materials (colors and textures).
- Send the space's dimensions.

Specifications

- Detailed information.
- Reference image with a good definition of lines and colors.
- Vector file in EPS or AI format.

Note

- The more detail is required, the bigger the decor should be.

Cada tesela, un pixel.

Transformamos un diseño o imagen en un mosaico con piezas 25x25. Reproduce logotipos, transforma imágenes, cenefas, patrones...

Proceso

- Explica bien tu idea con una imagen referencia.
- Envía tu propio diseño, si lo has desarrollado.
- Elige los materiales (colores y texturas).
- Dinos el tamaño del decorado.

Requisitos

- Información detallada.
- Imagen de referencia con cierta definición en líneas y colores.
- Archivo vectorial en formato EPS o AI.

Consideraciones

- Cuanto más detalle se requiera, más grande debe ser el decorado.

Chaque tesselle est un pixel. Nous transformons un design ou une image en une mosaïque avec des pièces de 25x25. Reproduisez des logos, transformez des images, des frises, des motifs...

Processus

- Envoyez une description détaillée de votre idée avec une image de référence.
- Envoyez votre propre design.
- Choisissez les matériaux (couleurs et textures).
- Envoyez les dimensions de l'espace.

Conditions

- Informations détaillées.
- Image de référence avec une bonne définition des lignes et des couleurs.
- Format de fichier vectoriel EPS ou AI.

Remarque

- Plus le détail est important, plus le décor doit être grand.

Dots

GREAT GRIP

The dot backing system allows up to 91 % of surface free for the adhesive.

El soporte por puntos deja libre hasta el 91 % de la superficie para adhesivo.

Le système de montage sur points laisse jusqu'à 91 % de surface libre pour l'adhésion du ciment colle.

MAXIMUM FLEXIBILITY

Full adaptability to any type of surface: corners, curved, irregular finishes...

Total adaptabilidad a cualquier tipo de superficie: esquinas, curvadas, acabados irregulares...

Adaptabilité totale à tout type de surface: angles, finitions courbes, irrégulières...

FAST INSTALLATION

The size of 12 x 18 tesserae and the ease of installation allows up to a 27% time saving during the installation.

El mayor tamaño de 12 x 18 teselas y la facilidad de colocación de las láminas permite un ahorro del 27% del tiempo durante la instalación.

La dimension des plaques 12 x 18 permet un gain de temps de 27% durant la pose.

MINIMUM THICKNESS

An even thickness which conceals the surface of the grouting.

Un grosor homogéneo que se oculta por completo con el rejunte.

Une épaisseur homogène parfaitement cachée avec le rejoint du produit.

HIGH RESISTANCE

The dot backing is damp proof, so it can be stored outside and it will remain unaltered.

Este sistema por puntos es insensible a la humedad. Es posible almacenarlo en el exterior permaneciendo inalterable.

Ce système ne craint pas l'humidité. Le matériel peut donc être stocké à l'extérieur sans que celui-ci ne subisse aucunes altérations.

VISUAL CONTROL

Unlike paper support, when you visualize the mosaic in the installation it is possible to create drawings and shapes.

Al contrario del soporte papel, al visualizar el mosaico en la instalación es posible crear dibujos y formas.

Contrairement au support papier, lorsque vous visualisez la mosaïque dans l'installation, il est possible de créer des dessins et des formes.

Mesh

GREAT GRIP

Mesh mounting system leaves the 75% of the back free for the adhesive.

El sistema de soporte por malla deja libre el 75% de la superficie del mosaico para el adhesivo.

Le montage de la mosaïque sur filet laisse 75% de la surface libre pour le ciment colle.

PENTA GLASS MOSAIC:

This Artisan-edge glass mosaic is made with recycled glass pieces and may include irregular edges, rustic appearances, minimal imperfections or slight variations in sizing and squareness. These characteristics are inherent to this product due to the manufacturing process. The slight size or shape variations may affect the grout joint appearance, further enhancing the natural aspect of this product. Use constitutes acceptance.

El aspecto artesanal del mosaico vítreo en formato PENTA es una cualidad inherente en estos productos por el proceso de fabricación. Las teselas podrían incluir ciertas irregularidades y mínimas imperfecciones en el tamaño aportando cierta apariencia rústica más alejada de la perfección cuadriculada. Además la reducción de tamaño y variaciones de tono pueden afectar al aspecto del rejunte y modificar la apariencia natural de estos mosaicos. El uso constituye aceptación de esta advertencia.

ONIX GLASS MOSAIC:

All ONIX 98 % recycled glass mosaics series are made of molten glass. Molten glass characteristics may include irregular edges and small variations in size. These characteristics are inherent to the product and to the standard production. The small size and shape variations can affect the grout joint appearance and enhance the natural aspect of these products. Use constitutes acceptance.

Todas las series ONIX con un 98% de vidrio reciclado están hechas con vidrio molido. Esta materia posee unas características particulares que podría ocasionar ligeras irregularidades y variaciones de tamaño en las fichas. Es una cualidad inherente al producto y a la producción estándar. La reducción de tamaño y variaciones de tono pueden afectar al aspecto del rejunte y modificar la apariencia natural de estos mosaicos. El uso constituye aceptación de esta advertencia.

PREPARATION OF THE BASE

The base on which the laying will be effected, must be perfectly smooth, uniform and white. A different colour damages the aesthetic look of the final result.

THE GLUEING OPERATION

White C2 glue, as per EN12004, must be used. By using the smooth side of the trowel, the glue has to be spread out uniformly on the base (2 sq.m. approximately). By using the jagged side of the trowel (2 or 3 mm.), comb the glue.

THE LAYING OF MOSAIC TILES

Adhere the sheet to the surface by pressing with a rubber trowel. It is important to make sure that the distance between one sheet and another is the same as the one among the tesseras so that all the joints look alike. We suggest to join the sheets when it comes to laying.

GROUTING

Joints must be clean, dry and free from dust. The remains of adhesive, after laying, must be removed while it is still fresh. Use grouting paste, RG type, as per EN 13888, spread it out with a rubber trowel.

CLEANING

Let it dry until the paste gets brightless, superficially, and then proceed to clean it with a sponge soaked in water. Once it gets dry, remove it with a dry cloth.

PREPARACIÓN SOPORTE

El soporte sobre el cual se efectuará la colocación deberá estar perfectamente liso, uniforme y blanco. Un color diferente perjudica la estética del resultado final.

OPERACIÓN ENCOLADO

Usar cemento cola tipo C2 color blanco, según EN 12004. Usando el lado liso de la llana extender el adhesivo uniformemente sobre el soporte (aprox. 2 m²). Con el lado dentado de la llana (2 ó 3 mm.) peinar el cemento cola.

COLOCACIÓN MOSAICO

Adherir la hoja a la superficie presionando con una llanta de goma. Es importante asegurarse que la distancia entre hoja y hoja es igual a la que hay entre las teselas para que todas las juntas sean iguales entre sí. Aconsejamos trabar las hojas a la hora de su colocación.

REJUNTADO

Las juntas deben estar limpias, secas y exentas de polvo. El adhesivo sobrante de la colocación se debe eliminar cuando esté todavía fresco. Utilizar pasta de rejuntar tipo RG según EN 13888, extendiéndolo con una llana de goma.

LIMPIEZA

Dejar secar hasta que la masa pierda el brillo superficial y proceder a su limpieza con una esponja humedecida en agua. Una vez seco eliminar con un trapo seco.

PRÉPARATION DE LA SURFACE

La surface sur laquelle on va effectuer la pose, doit être parfaitement lisse, uniforme et blanche. Une couleur différente nuit l'aspect esthétique du résultat final.

OPÉRATION DE COLLAGE

Employer une colle de type C2 de couleur blanche, selon la norme EN12004. Tout en employant le côté lisse de la truelle, la colle doit être répartie uniformément sur la surface (2 m² approximativement). Tout en employant le côté denté de la truelle (2 ou 3 mm.), peigner la colle.

LA POSE DE LA MOSAÏQUE

Adhérer la feuille à la surface tout en pressant avec une truelle en caoutchouc. Il est important de s'assurer que la distance entre chaque plaque est identique à celle entre les tesselles, de façon à ce que tous les joints soient égaux entre eux. Nous conseillons une pose des plaques en quinconce.

REMPLISSAGE DES JOINTS

Les joints doivent être propres, secs et sans poussière. Le surplus de colle suite à la pose doit être éliminé lorsqu'il est encore frais. Utiliser un joint de type RG selon la norme EN13888, tout en répartissant avec une truelle en caoutchouc.

NETTOYAGE

Laisser sécher jusqu'à ce que le joint perde son éclat superficiel et procéder à son nettoyage avec une éponge humide. Une fois que tout est sec, nettoyer avec un chiffon sec.

ONIX®, founded in 1999 in Onda (Spain), is a world leading glass mosaic company. Within a few years, the company is the Europe's largest producer, has had sales presence in more than 100 countries, developed a wide variety of projects around the world and participated in the main international exhibitions.

The continuous aesthetic search combined with a significant technological potential have positioned this prestigious spanish factory as the benchmark in the world of décor.

ONIX®, fundada en 1999 en Onda (España), es líder mundial en mosaico vítreo. En tan sólo unos años, es el mayor fabricante de mosaico vítreo de Europa, tiene presencia comercial en más de 100 países, realiza infinidad de proyectos por todo el mundo y participa en las principales ferias internacionales.

Su incesante búsqueda estética, sumada a su enorme potencial tecnológico, han posicionado esta prestigiosa firma española como un referente en el universo de la decoración.

ONIX®, une entreprise fondée en 1999 et située à Onda (Espagne), est leader mondial de mosaïque de verre. En quelques années, l'entreprise a réussi à conforter sa présence commerciale dans plus de 100 pays en développant notamment de nombreux projets à travers le monde et en participant aux principaux salons internationaux.

ONIX® est le premier fabricant de mosaïque en verre en Europe. Sa recherche constante de l'esthétique et son énorme potentiel technologique ont fait de cette prestigieuse marque espagnole une référence dans l'univers de la décoration.
