A man with short brown hair, wearing a black jacket with white stripes on the sleeves and blue jeans, is riding a black bicycle. He is looking down at the front wheel. The background shows a concrete wall and a building with windows.

*“Our bathroom concepts
are part of our customers lifestyle and
give them an energising experience.”*

Lammert Moerman, founder of JEE-O

Creative brain behind JEE-O, concept and product designer Lammert Moerman, only has one wish. To enable the world to feel the JEE-O DNA. Introduce bon vivants worldwide to the ultimate JEE-O feeling and let them discover the experience of showering and bathing in endless atmospheres.

JEE-O creates products with tranquillity, peace and space for body and mind, always in an ambiance of functional luxury.

JEE-O unique bathrooms

*“It is important to have
a bathroom where everything
is coordinated”*

Edward van Vliet

Together with the well-known Dutch interior designer Edward van Vliet, JEE-O has designed a stylish bathroom collection: the bloom series. Like all designs of the top designer, the refined collection was inspired by nature and geometry.

Van Vliet's love of nature and geometrical shapes is reflected in the smooth transition from facet to round shapes in the design of the baths and basins, and in the hexagonal-shaped faucet heads and handles. A sunflower served as inspiration for the shower head.

The timeless bloom collection includes all the elements for optimum bathroom enjoyment: a bath, top mounted and freestanding basins, a ceiling shower and wall shower, and accessories. Designed with care and vision, they are all eye-catchers with international allure to suit any bathroom.

“I think it is important to have a bathroom where everything is coordinated”, says Edward Van Vliet “The bath and the shower must be generous. It's all about creating worlds. Apart from the fact that everything has to function properly, my aim is to enable people to fully embrace the world of water.”

A portrait of Brian Sironi, an Italian designer, standing with his arms crossed. He is wearing a blue shirt, a dark vest, and glasses. The background is a dark, textured wall.

*“We rarely see the pipes;
they are hidden away behind walls
and under floors”*

Brian Sironi

Water takes on the shape of the object that contains it. That concept has been the starting point for Italian designer Brian Sironi in designing the JEE-O flow series. Up until the moment water flows from the faucet and is free to take on any shape, it has the shape of the pipes through which it flows.

Brian Sironi: “We rarely see the pipes; they are hidden away behind walls and under floors. These taps and mixers from the flow series reveal the piping, extending it into the bathroom.”

In this series you will find a freestanding and wall mounted shower mixer, a freestanding bath mixer and wall and top mounted faucets. The in multiple colour available bath and basins in this series complements it fully.

Grand & Johnson

RAW

hammercoated black

SoHo is a vibrant neighborhood in cosmopolitan New York. A dynamic melting pot of cultures and styles, and home to countless industrial loft apartments, SoHo is austere and stark. This freestanding productline is characterized by the same simplicity. Less is more. Thanks to the one-move cartridge in the faucet mechanism, the cleverly designed handle with a tactile rubber coating can be operated in the same way as a joystick. All JEE-O soho products are made from stainless steel and finished with a dark, all-weather hammer coating for the right industrial look.

The JEE-O soho series is the first productline to result from the alliance between JEE-O and the Amsterdam-based design studio Grand & Johnson: creative cosmopolitans working together to shape maximal minimalism.

This robust JEE-O soho series designed by Grand & Johnson consists of freestanding shower mixers, a freestanding bath mixer, top and wall mounted faucets, mixers, spouts and a hand shower, wall and ceiling mounted shower, a bath, basins and accessories to complete your unique bathroom.

*“With our freestanding icons
we wish to give people freedom to
design the bathroom they desire
for an energizing experience.”*

Lammert Moerman

The pure series is the embodiment of the natural energizing experience of flowing water. As the water cascades down from the spout, light is reflected in the water flow. Radiating the purest feeling that water can give. The pure series has a clean design with an O-ring to regulate both the water flow and the temperature.

This beautiful JEE-O pure series is designed by Lammert Moerman and consists of a freestanding shower, wall and top mounted faucets and a freestanding and wall mounted bath mixer.

Benefits stainless steel material

Solid stainless steel
The full stainless steel body provides superb durability also on the build-in parts, high mechanical strength and resistance to thermal shock and corrosion.

Easy care – easy repair
Made from strong material and with high grade finishes. This product is easy to clean and maintain.

Hygienic and safe
Stainless steel is the safe choice. Use the products worry free, because there is no unwanted release of substances in the water.

Quality assurance
Seven years warranty on our taps and showers guarantee against production defects. It is the standard, not just an option.

Selected high quality components
The best components are selected to excel. Engineered and tested against international criteria and standards, for a trustworthy performance.

Synergies within collections
Complete series offering a broad range of choice from shower and faucet to bath, basin and accessories. All designed to match and make a true design statement.

Everlasting
Stainless steel is everlasting and if needed re-usable. It is the more sustainable choice. Even more so, when combined with our 'cold-start' progressive mixers and flow reducers.

Unique design
Outspoken freestanding items, that give you freedom to design fitting to your needs. Feel energised by your choice of interior design and when experiencing the wellness the products bring.

Benefits DADOquartz material

Exceptionally strong
Full-bodied, 100% solid structure. Engineered & tested in accordance with stringent technical criteria.

Easy care - Easy repair
Hand finished to ensure a smooth, luxurious look which is easy to clean. Small damages are easy to repair.

Clean-Hygienic
Non-porous material ensures an easy to clean surface, resistant to micro-organisms and bacterial growth.

100% UV resistant
Natural matt stone appearance & extreme UV resistant, your bath will retain its colour.

Soft warm touch
Due to its high heat retention properties, your bath will heat up quickly and remain warm.

Unique design
Unique products that give freedom of design and fit perfectly within the JEE-O collection.

Lightweight material
Due to the material all DADOquartz products are lightweight.

Quality-Assurance
A 25 year lifetime warranty on defects in materials or craftsmanship.

Easy installation
Easy to install with space underneath the bath for plumbing.

JEE-O works with carefully selected solid surfaces materials. Slight variations in the aesthetic appearance of the product including the colour, may occur after exposure to atmospheric influences such as sunlight, pollution or harmful chemicals. This does not affect the product performance in any manner. Situation specific care and maintenance instructions may apply. For our general cleaning and maintenance recommendations, visit our website www.jee-o.com
